Brady's father purchased a bait shop near the lake called "**The Tackle Box**". They are in the process of getting it into shape and it is already looking spiffy! Hailey is in love with the 4 minnow holding tanks in the back. She could stand and watch them being scooped up and bagged all day or stir them up if someone would let her do it constantly! Brady let her hold one and she didn't even budge. They found a super large tadpole mixed in and that fascinated her too. She kept asking me if we could go back and try to find it again several times when we visited. They opened up the store officially on Friday. I put the children's swim suit cover ups on them and let them stand outside for a bit to "lure" in customers. They plan to have a grand opening in a few weeks. Maybe by then I will have a cute fish costume or a bobber costume created for them to wear! Anyway, I am excited for Smokey and I think it will be a profitable little store.
