

My beloved Oreck Air Cleaner passed away this morning and I am sad. It was a good machine. It spun around making noise almost day and night for over 5 years drowning out all unwanted noise. You were a gift from my mother and were serviced only once. I should have cleaned you more but I didn't -yet you contiued to make that lovely sound and let us all sleep in restful peace. Meanwhile, may you rest in peace until I take you to the Oreck dealer to see if he can revive your spirit...

I'll have to sleep with the back up air cleaner tonight but it just isn't the same!

I did however find you a friend. Not a replacement because you were just too good. I hope it lives up to your quality. Here is what I ordered today. It is called a White Noise Machine-SleepMate 980A from Sleepwellbaby.com. Can't wait to meet you!
