My sister-in-law Jennifer tagged me to go to my pictures folder on my computer and find the 6th folder and the 6th picture. This is what I found! Most everyone knows I love clovers- especially four leaf ones. This picture is one Brady and I added color to a long time ago. My mother loved looking at the "funnies". She was always cutting out ones that made her laugh or reminded her of something. This one was for me.

This is the original newspaper clipping.
