Pumpkin Carving!

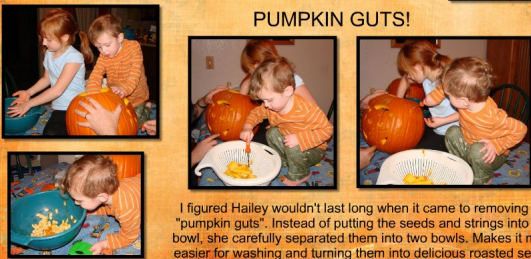

Brady and the kids carved our pumpkin into this cute cat!

We used a paper template and traced the cat pattern onto the pumpkin. Hailey chose a bat at first but I talked her into the cat. He wasn't so cute! Then it was time to cut sections of it out. Hunter was very tired and getting cranky but was interested in what we were doing. He liked playing with the tools. Those kid friendly ones they sell work well. I have had mine for several years now and they still do the job! Hailey was really into it and stayed involved until we were completely finished. She was a very good helper.

PUMPKIN GUTS!

I figured Hailey wouldn't last long when it came to removing the "pumpkin guts". Instead of putting the seeds and strings into one bowl, she carefully separated them into two bowls. Makes it much easier for washing and turning them into delicious roasted seeds!
