Having Fun with the Cousins!
I got a personal tour from Hailey. Brady, Hailey and her cousins went and toured an area while I kept Hunter. He pitched a fit the ENTIRE time because Brady went with Hailey but my personal tour was worth it. Hailey showed me all the places they went - even the secret area where I snapped a quick photo of ourselves. She was a great tour guide!

FAMILY REUNION

The Grand Canyon trip was good. It isn't exactly a safe place to take small children but we all made it just fine. We traveled to and from areas by bus which was nice and walked some. We also ate some good food in a really hot hotel and had some good conversation and bonding time with each other. I would like to go back again some day and tour other areas and stay overnight. Maybe even hike to the bottom. I'll need help getting out though!
