Hailey's 3rd Grade class this year has book reports. The last one was over an animal and the assignment was to create a diorama to go along with it. She chose frogs. Probably because she has a really cute Whites Tree Frog of her own! She made an A+ on her report and diorama. Love my smart girl. Here is her diorama. I love that she drew a picture of it first and all the tiny rocks she glued around her pond.

The same week Hailey's frog book report was due, Hunter comes home with an assignment to research an animal. So he picked a frog too! Here is his cute report and picture.

Frog
Their Eggs are soft
and Jelly.
Frogs Jump.
Water is soaked
through their skin.
